

Sprint Society AI Coach

RAG Knowledge Source Repositories

82 repos cloned, extracted, and indexed into the coaching knowledge base

Training Plans & Coaching Logic (19)

sbaillez/training-plan

FIRST method (5K-marathon) plan templates

<https://github.com/sbaillez/training-plan>

jandroav/vtrain

Jack Daniels VDOT-based auto-generated plans

<https://github.com/jandroav/vtrain>

PatrickWilok/proper-distance-running-training-guidance

Scientific training guide (content-rich)

<https://github.com/PatrickWilok/proper-distance-running-training-guidance>

ColinEberhardt/claude-running-coach

AI coach skill, evidence-based

<https://github.com/ColinEberhardt/claude-running-coach>

jnkue/open-trainaa

Endurance AI coach (FastAPI + Supabase)

<https://github.com/jnkue/open-trainaa>

Raistlfiren/garmin-csv-plan

Garmin CSV plan importer

<https://github.com/Raistlfiren/garmin-csv-plan>

eddmann/intervals-icu-mcp

MCP server for training data

<https://github.com/eddmann/intervals-icu-mcp>

hhopke/intervals-icu-mcp

MCP for intervals.icu

<https://github.com/hhopke/intervals-icu-mcp>

hoovercj/time-to-run

Running schedule generator

<https://github.com/hoovercj/time-to-run>

apsureda/garmin-planner

Garmin training planner

<https://github.com/apsureda/garmin-planner>

supermitch/runblueprint.com

Run blueprint web app

<https://github.com/supermitch/runblueprint.com>

trifectalabs/trifecta

Training platform

<https://github.com/trifectalabs/trifecta>

benranderson/training-plan

Training plan generator

<https://github.com/benranderson/training-plan>

furgerf/TrainingPlanner

Training planner app

<https://github.com/furgerf/TrainingPlanner>

SKOHscripts/workout-planner

Workout planner

<https://github.com/SKOHscripts/workout-planner>

danielcoats/training-planner

Training planner

<https://github.com/danielcoats/training-planner>

matthewbeckler/training_plan_to_ics

Plan to calendar export

https://github.com/matthewbeckler/training_plan_to_ics

selesse/marathon-trainer

Marathon training app

<https://github.com/selesse/marathon-trainer>

iROCKBUNNY/Marathon

Marathon training reference

<https://github.com/iROCKBUNNY/Marathon>

Running Coach Apps - AI/ML (11)

EmmanuelDav/Smart-Run

AI coaching, overexertion-aware

<https://github.com/EmmanuelDav/Smart-Run>

v-pramod/RunningCoach

Strava clone + AI coach

<https://github.com/v-pramod/RunningCoach>

GermanAlonzo/RunningCoachingApp

Running coaching app

<https://github.com/GermanAlonzo/RunningCoachingApp>

raptors2019-ai/running-coach

AI running coach

<https://github.com/raptors2019-ai/running-coach>

latinovation/running-coach-app

Running coach app

<https://github.com/latinovation/running-coach-app>

RonRan123/running-app

Running app with features

<https://github.com/RonRan123/running-app>

EmmanuelDiaz95/trail-running-coach

Trail running coach (411KB architecture docs)

<https://github.com/EmmanuelDiaz95/trail-running-coach>

naamkeng/RunningCoachApp

Running coach app

<https://github.com/naamkeng/RunningCoachApp>

Maksat/RunningCoach

Running coach

<https://github.com/Maksat/RunningCoach>

Joeglasses95/Running-Coach

Running coach

<https://github.com/Joeglasses95/Running-Coach>

mdmedley/cadence-coach

Cadence coaching

<https://github.com/mdmedley/cadence-coach>

Pace / VDOT / VO2max Calculators (10)

ronek22/runningCalculator

Jack Daniels VDOT implementation

<https://github.com/ronek22/runningCalculator>

hivrich/vdot-calculator

VDOT + race predictions

<https://github.com/hivrich/vdot-calculator>

ZacBlanco/vdot

Clean VDOT implementation

<https://github.com/ZacBlanco/vdot>

tlgs/vdot

VDOT calculator

<https://github.com/tlgs/vdot>

oliverbeal/Running-Calculator

Running calculator

<https://github.com/oliverbeal/Running-Calculator>

xuthus/DistanceCalculator

Distance calculator

<https://github.com/xuthus/DistanceCalculator>

chaserycse/VdotCalculator

VDOT calculator

<https://github.com/chaserycse/VdotCalculator>

jonathanlofgren/running

Pace calculator

<https://github.com/jonathanlofgren/running>

johnjdavisiv/gap-app

Grade-adjusted pace algorithm

<https://github.com/johnjdavisiv/gap-app>

thehivemakes/hive-run-calc

Pace + VO2max + HR zones combined

<https://github.com/thehivemakes/hive-run-calc>

Strava / Garmin / Data Analysis (20)

ropensci/Athlytics

ACWR, TRIMP, EWMA training load calculations

<https://github.com/ropensci/Athlytics>

aaron-schroeder/heartandsole

Running data analysis library

<https://github.com/aaron-schroeder/heartandsole>

markwk/qs_ledger

Quantified-self data aggregator

https://github.com/markwk/qs_ledger

danielgtr/running_analysis

FIT file parsing + HR zones + form metrics

https://github.com/danielgtr/running_analysis

mattambrogi/strava-data-analysis

Strava data analysis

<https://github.com/mattambrogi/strava-data-analysis>

mandieq/strava_related

Strava analysis tools

https://github.com/mandieq/strava_related

MathBunny/strava-wind-analysis

Wind impact on running analysis

<https://github.com/MathBunny/strava-wind-analysis>

c-wilkinson/StravaDataAnalysis

Strava data analysis

<https://github.com/c-wilkinson/StravaDataAnalysis>

ikivanc/Data-Driven-Cycling-and-Workout-Prediction

Workout prediction ML

<https://github.com/ikivanc/Data-Driven-Cycling-and-Workout-Prediction>

lucasjellema/data-analytics-strava-tour-de-france

Tour de France analytics

<https://github.com/lucasjellema/data-analytics-strava-tour-de-france>

Lucs1590/strava-analysis

Strava analysis

<https://github.com/Lucs1590/strava-analysis>

kylethmas/stravaDataAnalysis

Strava data analysis

<https://github.com/kylethmas/stravaDataAnalysis>

newns92/MarathonTrainingAnalysis

Marathon training analysis

<https://github.com/newns92/MarathonTrainingAnalysis>

AhmedJouda2000/Marathon-App

Marathon app

<https://github.com/AhmedJouda2000/Marathon-App>

Ahmosys/garmin-metrics-api

Garmin metrics API wrapper

<https://github.com/Ahmosys/garmin-metrics-api>

alexanderakbik/GarminExport

Garmin data export

<https://github.com/alexanderakbik/GarminExport>

tehj4ckass/garmin-connector

Garmin connector

<https://github.com/tehj4ckass/garmin-connector>

COLINZH26/garmin-ai-skill

Garmin + AI coaching skill

<https://github.com/COLINZH26/garmin-ai-skill>

MrPabloUK/Garmin-Connect-Export

Garmin Connect export

<https://github.com/MrPabloUK/Garmin-Connect-Export>

ubershmekel/cardiorounds

HR zones / interval analysis

<https://github.com/ubershmekel/cardiorounds>

Exercise Physiology & Sports Science (13)

dpfens/PyExPhys

Exercise physiology equations (Python)

<https://github.com/dpfens/PyExPhys>

dpfens/FitnessJS

Exercise physiology equations (TypeScript)

<https://github.com/dpfens/FitnessJS>

physusp/physusp

Physiology simulation

<https://github.com/physusp/physusp>

aaronzpearson/PhysAndSportSciData

Sports science ML datasets

<https://github.com/aaronzpearson/PhysAndSportSciData>

villekuosmanen/physiology-sim

Physiology simulator

<https://github.com/villekuosmanen/physiology-sim>

MoTrPAC/MotrpacRatTrainingPhysiologyData

Training physiology data

<https://github.com/MoTrPAC/MotrpacRatTrainingPhysiologyData>

mtpa/sads

Sports analytics and data science

<https://github.com/mtpa/sads>

tuangauss/DataScienceProjects

Data science sports projects

<https://github.com/tuangauss/DataScienceProjects>

skoval/UseRSportTutorial

Sports analytics R tutorial

<https://github.com/skoval/UseRSportTutorial>

bruinsportsanalytics/Resource-Folder

Sports analytics resources

<https://github.com/bruinsportsanalytics/Resource-Folder>

akirademoss/SportsScienceAnalytics

Sports science analytics

<https://github.com/akirademoss/SportsScienceAnalytics>

JD-008/Edge-AI-Gait-Classification

Gait/biomechanics AI classification

<https://github.com/JD-008/Edge-AI-Gait-Classification>

jeff3388/awesome-injury-prevention-science

Curated peer-reviewed injury evidence

<https://github.com/jeff3388/awesome-injury-prevention-science>

Agentic RAG / LLM Fitness Coach Architecture (14)

Mohamed-Elguindy/Fitness-App

Agentic RAG router, LlamaIndex, Groq

<https://github.com/Mohamed-Elguindy/Fitness-App>

Hayfa78/fitness-nutrition-agent

Hybrid RAG, FAISS, LangGraph

<https://github.com/Hayfa78/fitness-nutrition-agent>

Mohamedreda333-crypto/FitAI-Pro-Multi-Agent-AI-Fitness-Coaching-Platform

RAG + Groq multi-agent platform

<https://github.com/Mohamedreda333-crypto/FitAI-Pro-Multi-Agent-AI-Fitness-Coaching-Platform>

kenhuangus/fitness-multi-agent-plan

LangGraph + memory + injury avoidance

<https://github.com/kenhuangus/fitness-multi-agent-plan>

CHANDRA294/multi-agent-gym-buddy

RAG + vector DB fitness

<https://github.com/CHANDRA294/multi-agent-gym-buddy>

saisrujanseelam/AI-multi-agentic-consensus-fitness-trainer-

Multi-LLM consensus coaching

<https://github.com/saisrujanseelam/AI-multi-agentic-consensus-fitness-trainer->

vimalkumarasamy/agent-balboa

Strava + coach + LLM tools

<https://github.com/vimalkumarasamy/agent-balboa>

Coding-Phantom/FitnessForge

Fitness forge agent

<https://github.com/Coding-Phantom/FitnessForge>

LI-explorer/LLM-Fitness-Coach

LLM fitness coach

<https://github.com/LI-explorer/LLM-Fitness-Coach>

blandevv/home-fitness-agent

Home fitness agent

<https://github.com/blandevv/home-fitness-agent>

MachaaX/FitAgent

Fitness agent

<https://github.com/MachaaX/FitAgent>

oscartiz/hermes-agent

Tool-calling agent loop pattern

<https://github.com/oscartiz/hermes-agent>

ipranaysatija/Nutrition-Energy-Exercise-Agent-NEXA-

Nutrition + exercise agent

<https://github.com/ipranaysatija/Nutrition-Energy-Exercise-Agent-NEXA->

JorgeRan/NeuroFit

Neural fitness agent

<https://github.com/JorgeRan/NeuroFit>
